

User Responsibilities

1. Users must complete one round of data orders before submitting a withdrawal request.
2. No withdrawals or refunds are permitted during the execution of data orders.
3. Users cannot cancel or skip orders.
4. **Large Withdrawal Channel Activation:** When a user initiates a single withdrawal request of 10,000 USDC/T or more for the first time, the system will automatically trigger the risk-control mechanism and temporarily restrict the account's withdrawal function. To lift this restriction, the user must deposit an amount equal to 50% of the account's current balance as bond into their Criterionx account. This deposit will be directly added to the user's total balance on the Criterionx platform and will be used to activate the Large Withdrawal Channel. Once the channel is successfully activated, the account's withdrawal function will return to normal, the withdrawal limit will increase to 100,000 USDC, and the user will receive priority withdrawal rights.
5. Users are required to fulfill their responsibilities in accordance with the Platform's terms and conditions and agreements, and to submit optimized data within the specified timeframe. If a merchant suffers financial losses due to the user's failure to fulfill obligations, and the amount of such losses exceeds the user's frozen account balance, the user may face legal action and will be responsible for compensating the merchant for all resulting losses.

Terms and Conditions

1. **Agreement:** The user contract and terms of service shall be based on the terms and conditions stipulated for the account. The user shall provide relevant information and documents to the Site, and the user's agreement serves as an attachment to the contract terms.
2. This site provides services to all users according to these terms and conditions. If you have any questions or other important inquiries, please contact the relevant department for assistance.
3. We may suspend or terminate a user's account immediately without notice if the user violates any of these terms and conditions or is reported to be engaging in abusive online behavior.
